SANT LONGOWAL INSTITUTE OF ENGINEERING AND TECHNOLOGY

Sangrur, INDIA

Bachelor of Engineering

Jul 2015 – May 2019

Cumulative GPA: 8.04/10

WORK EXPERIENCE

INFOSYS LIMITED.

Trivandrum, INDIA

Senior Systems Engineer & Full Stack Developer

Mar 2020 – Aug 2022

- **Rite Aid Project:** Served as a UI & AEM resource on a Project for Rite Aid Corporations.
- **Ford UK Project:** Contributed to the development of the Ford UK website (ford.co.uk), using AEM for content management and Angular for the front-end. Assisted with the maintenance and content updates, ensuring that all web pages met performance and user experience standards.
- Actively worked on both client-side and server-side development with a focus on performance optimization and security.
- Utilized JavaScript frameworks and participated in code reviews to ensure technical excellence.
- Developed features for Rite Aid's website allowing users to check prescriptions, refill them, and register for vaccination appointments ([Rite Aid Scheduler Component](#), [Refill Prescriptions](#)).
- Actively involved in UI development for a critical COVID-19 scheduler component at Rite Aid (United States). The project used AEM combined with HTML, jQuery, Handlebar.js and CSS in Front End. While doing so, acquired proficiency in advanced concepts such as OSGI (Apache Felix), Apache Sling Framework, Sling Models, ClientLibs, Maven Archetype Build System, Dispatcher, configuring Apache HTTPD, Web Server, and Servlets, dialog and template level content policies, enabling effective customization and extension of AEM functionalities.
- Extensive experience with AEM 6.5, AEM Components Development, and integrating Dialogs, HTL/Sightly, Sling Models.
- Worked with AEM Templates, Editable Templates, Experience Fragments, Dispatcher configuration, and Content Fragments to ensure a seamless authoring experience.
- Implemented Sling Servlets, Sling Services, Event Handlers & Listeners, Sling Model Exporters, Vanity URLs, and Sling Schedulers for custom business logic in AEM.
- During this project acquired understanding of CI/CD pipelines, Azure DevOps, Jira, Jenkins, Git and automation testing practices.
- Collaborated closely with business stakeholders to ensure alignment with their requirements.
- Worked in an Agile environment by attending daily scrum meetings, sprint retrospective, demos, sprint planning and by taking up tasks, features and user stories.
- Managed high-pressure workloads and contributed to over 10 production releases at Ford UK and more than 50 releases at Rite Aid.

- Completed a comprehensive apprenticeship program, acquiring foundational knowledge in programming fundamentals and technologies such as Angular, Node.js, Express.js, SQL, ReactJS, HTML, Java, CSS, Bootstrap, Full Stack Web Development (MEAN stack), Scrum, Agile, Python, Data Structures, MVC, and OOPS Concepts. Used IDEs extensively such as VS Code & Eclipse.
- Received training in Adobe Experience Manager CMS, gaining extensive hands-on experience in developing Editable Templates, Custom Components utilizing JSP and Sightly (HTL), and a deep insight into OOTB and foundational components. Acquired a comprehensive understanding of Authoring and Publishing environments, as well as Replication Agents.
- Gained hands-on experience in Adobe Experience Manager (AEM) CMS, developing editable templates, scripting using CLI, and custom components utilizing JSP and Sightly (HTL).
- Demonstrated problem-solving abilities and effective communication skills while collaborating in a cross-functional environment.

SKILLS, CERTIFICATIONS AND AWARDS

- **Technical Skills:** Adobe Experience Manager AEM 6.5 and AEMaaCS, JavaScript, TypeScript, Express.JS, jQuery, CSS, Angular, Jasmine, RESTful web services, Docker, MySQL, NoSQL, HTML, HTL, Python, RDBMS, Bootstrap, Handlebar.js, NodeJS, Java Content Repository - CRX/DE.
- **Analytical and General Skills:**
 - Quick learner with capacity to listen to peers, strong analytical and data interpreting aptitude.
 - Experienced in leadership roles during college fests and karting competitions with a focus on teamwork.
 - Exceptional communication skills with experience in corporate industry.
 - Keen sense of observation and ability to analyze complex scenarios.
 - Always ahead of the time attitude which helps in finishing tasks on time and helps in correct estimation of time for tasks.
- **AI and Prompt Engineering:**
 - Regular use of AI tools like ChatGPT for coding assistance, problem-solving, and improving workflows.
 - Proficient in crafting effective prompts to extract relevant and precise information from AI tools.
- **Certifications:**
 - **Adobe Certified Expert - Adobe Experience Manager Sites Developer.** (January 2024).
 - Scrum Fundamentals Certified (SFC) by SCRUM study.
 - Fundamentals of Agile Project Management by PMI.
 - React essentials on LinkedIn.
 - JavaScript essentials on LinkedIn.
- **Extracurricular Activities:**
 - Placement Representative for the training and placement drive of the university
 - Participated and represented the college in Lawn Tennis Tournaments.
 - Led Steering and Brakes Department of college's Go-kart team in National Level competitions.
